Reports Differ as to Result of Roumania Drive, But Best Advices Seem to Stamp It as a Disaster.

(Associated Press Cable.)

LONDON, OCTOBER 6 — WHILE THE ENTENTE FORCES HOLDING THE CENTER OF THE MACEDONIAN FRONT REMAIN INERT BOTH FLANKS CONTINUE VIGOROUSLY ON THE AGGRESSIVE.

Today's reports indicate a weakening of the Bulgarian resistance to the British pressure on the eastern end of the line beyond the Struma. Here, the Bulgarians have evacuated Nevoljen, which has been occupied by the British, and are reported in retreat.

Previous offensive movements by the British, east of the Struma have not been followed up vigorously.

In the present operation, however, the British forces have withstood numerous Bulgarian counter attacks and the consolidation of all the ground won is now reported.

Sofia again reports the failure of Russian and Roumanian attempts to push back Field Marshal von Mackensen's line in Dobrudja.

The complete clearing of the southern bank of the Danube of the Roumanians who recently crossed the river also is announced.

British Gains

Attacks by the British on the Somme front have gained them some ground along the Pozieres-Bapaume road, according to London.

A further inroad was made into the German lines northeast of Eaucourt l'Abbaye.

Only artillery activity on the French section of the Somme front is reported in today's Paris bulletin.

British raiders have been active in both the Lille and the Lens regions. Whether these raids on the German lines have more than local significance is not apparent.

In operations in the Loos and Armentieres districts, included within this area of activity, gas was discharged from the British trenches.

Verdun Again

The German Crown Prince has resumed active operations at Verdun, Paris announces.

His guns have opened up a heavy fire on Pepper Hill, north of the fortress, while elsewhere in the Verdun region the artillery is notably busy.

Claim Success

(Associated Press Cable.)

LONDON, OCTOBER 6.—The recent crossing of the Danube river by Roumanian forces constituted a successful raid, according to a wireless dispatch from Rome today.

The Roumanians, says this ver-

sion of the affair, destroyed Bulgarian depots, consisting of large quantities of provisions, and re-crossed the Danube without losing a man.

According to Bulgarian reports of the past two days, however, the Roumanian expedition was caught between two fires and virtually annihilated, being driven back across the river.

Call Money Is Lent in New York for Two Per Cent.

Money Transferred to London.

By Associated Press Dispatch.

New York, October 6. — Between \$75,000,000 and \$100,000,000 in banking funds, bankers here estimate has been transferred from New York to London this week, and the movement is still under way.

Call money was lent in New York yesterday at as low as two per cent. Bankers contend at this figure it is almost impossible to make customary profits on call loans, for this reason they have been putting out money on call in London for some time.

The high mark on time money in this market yesterday was only three and one-half per cent, and the low was three per cent.

Local bankers say that they can get as high and five and one-half per cent on time loans in Great Britain.

BRIEF VISIT
IN CHICAGO
BY WILSON

Malta, Ills., Crowd Stages Old-fashioned Women's Debate.

By Associated Press Dispatch.

Chicago, October 6. — President Wilson paid a brief visit to Chicago today while on his way from Omaha to Long Branch, N. J., where he speaks to a delegation of independents tomorrow afternoon.

During his brief stay here, the President discussed politics with several western Democratic leaders. Secretary Tumulty visited Democratic headquarters here.

An old time "home interest" debate between women, over politics, was heard by the President this morning when his train stopped for a few minutes at Malta, Illinois. Most of the women wore sunbonnets.

"I like you, but I'm going to vote for Hughes," said one woman. Immediately, all the other women began a verbal onslaught on her.

"Aren't you ashamed of yourself," one woman said.

"You know Wilson is the best man," declared another.

"Well, I'm going to vote for Wilson," said a third.

"Ladies! Ladies!" exclaimed the President. "It's very embarrassing to me to be present at this debate."

A man asked to shake hands twice with Mr. Wilson.

"My wife used to be a Republican, but this year she's going to vote for you," he said.

The President expressed himself as very well satisfied with the reception accorded him in the middle west.

Mr. Wilson will next visit the West when he goes to Indianapolis, October 12. He will be in Chicago October 19.

New York Milk Situation Increasing in Serious Aspect. — Much Suffering.

By Associated Press Dispatch.

New York, October 6.—The continuance of the deadlock today resulted in a still more serious situation in respect to the milk supply.

Morning deliveries were still further diminished, and many thousands were unable to secure milk at all.

To prevent a recurrence of yesterday's scenes on the upper East Side, when hundreds of women stormed milk depots, extra details of police were on duty today.

The women again swarmed to the depots, soon exhausting the supply, but there was no disorder.

Home Rule Safe, Leader Says, if Ireland Remains Sane.

(Associated Press Cable.)

Waterford, Ireland, October 6.—

In a notable address to his constituents here this afternoon, John Redmond, the Irish Nationalist leader in Parliament, declared that despite the recent rebellion, "with all its inevitable aftermath of brutalities, stupidities, and inflamed passions," home rule for Ireland is safe if Ireland remains sane.

Mr. Redmond also declared that conscription could never be forced upon Ireland, adding:

"I cannot bring myself to believe that, malign though the influences at work are, the Government will be insane enough to challenge a conflict with Ireland on this subject."

"Conscription for Ireland, far from helping the army and the war, would be the most fatal thing that could happen."

"It would be resisted in every village in Ireland! Its attempted enforcement would be a scandal which would ring around the world! It would produce no additional men!"

"The mere threat is paralyzing recruiting, which, mark you, is not dead, as some people say. Latest figures, indeed, show that from the date of the Rising (Easter Sunday) until September 6,000 recruits were received."

"This demand for conscription is not a genuine military demand. It is a base political device put forward by men who want to injure and discredit Ireland's political future."

PEACE RUMOR
IS STARTED

New York Newspaper Says Gerard Bears a Request From Germany to Wilson.

By Associated Press Dispatch.

New York, October 6.—The New York Evening Post today publishes a story saying that it has been learned from a trustworthy source that Ambassador James W. Gerard, now on his way from Germany, will lay before President Wilson a request that the President use his good offices in suing for peace with the Allies.

Germany has definitely decided to apply to President Wilson, the article says, "to use his good offices in suing for peace with the Allies."

"This was learned today from sources in a position to have absolutely trustworthy information on the matter."

"It is understood that James W.

Gerard will lay the Kaiser's request before President Wilson within a week.

"It is a fact, however positively it may have been denied officially, that the possibility of President Wilson acting as mediator has been discussed by German officials with Ambassador Gerard."

It is, therefore by no means surprising that the reports now take definite shape in connection with Mr. Gerard's trip to this country."

Ambassador Gerard will arrive in New York about Tuesday next.

GIRL ENGINEERED
HOLD UP MURDER

By Associated Press Dispatch.

Philadelphia, Pa., October 6.—

Four persons are under arrest here today in connection with the hold-up and murder at Atsion, near Hammonton, New Jersey, yesterday, and the police have several others under surveillance.

The police declare they believe Mille De Marco, 19 year old girl of this city, engineered the hold-up.

She was employed at the home of A. J. Rider, president of the New Jersey Cranberry Growers' Association, and one of those wounded in the attempted robbery.

Harry Rider, of Howell, Mich., was the only one killed, but A. J. Rider and his daughter, Mrs. Elsie Smatters, 36, a widow of a few weeks, were shot and seriously injured. It is thought they will recover.

After putting the prisoners through the third degree at police headquarters today, the girl, it is said, made damaging admissions to the effect that she and three men companions had motored to Atsion yesterday, and that they were there at the time of the shooting and had heard the shots fired at the automobile as it drove through the men who attempted to hold it up to secure \$5,000 it contained—the payroll of Rider's cranberry bog workmen.

Mrs. Smatters' heroic action in driving through the fusillade of bullets, when eleven men demanded that she stop the car, made her a heroine here today.

She had been wounded twice, but held to the steering wheel and drove the car at a racing speed to Hammonton to get aid for her father, who was wounded several times.

The eleven men implicated, together with the De Marco girl, are Italians.

DRILL COMPANY IS KEPT BUSY

Dr. Paul Hildebrandt returned Tuesday evening from a few days at the plant of the Sanderson-Cyclene Drill Company, of Orrville, O., and reports business booming and orders booked ahead to keep the plant running full time for many months.

The firm's New York agent leaves the latter part of this week for Europe, planning to invade England, Norway, Sweden, Russia and France, as there have been sufficient inquiries from machinery agents to justify an attempt to conquer those countries, as the governments are planning extensive reconstructions after peace is established and water is important.

Shipments have been made, and often duplicated, during the past year to Bombay, the Soudan, Morocco and South Africa, the shipments to the Soudan and Morocco being in connection with large agricultural developments being un-

dertaken by the respective governments, in fact the shipments being made to the order of the governments of these colonies. On the whole the past year has shown a satisfactory business, about the only limitation being the inability to get certain materials, notably castings and steel.

TWO-THIRDS OF SEEDING FINISHED

It is estimated that Fayette farmers have completed two-thirds of their work of wheat sowing, and that next week will witness the completion of the work.

The acreage this year will be about an average one, and the weather and condition of the soil has made wheat sowing easy this year. Some delay is being experienced where the corn cannot be removed fast enough to keep out of the road of the drill.

The ladies of Maple Grove church will hold a sale of eatables, fresh country produce, home made cake, bread, etc., at Cockerill's grocery, Saturday at 9 a. m.

NOTED LEADER TO SPEAK HERE

It was Fred B. Fisher's enthusiastic leadership which brought to pass the National Convention of Methodist Men at Indianapolis in October, 1913, the New England Convention at Boston in November, 1914, and the Ohio convention at Columbus in March, 1915. For six years Dr. Fisher has organized and conducted conventions, conferences and institutes under the direction of the Laymen's Missionary Movement of the Methodist Church. He will address the meeting to be held in this city Sunday, Monday and Tuesday.

Dr. Fisher is a native of Indiana, a graduate of Boston University, with graduate work at Harvard. He was for three years the pastor of the First Methodist Church of Boston, Mass., and his first service for missions was in India. He is at present General Secretary of the Laymen's Missionary Movement of the Methodist Episcopal Church.

Dr. Fisher is the author of "The Way to Win," a new book on successful methods in the local church, published in the fall of 1915.

MAY CHARTER A SPECIAL TRAIN

Indications are that a special train will be chartered from this city to Circleville and return in order that local business men and citizens may see the big milk-fed pumpkins competing in the Circleville Pumpkin Show, and learn how the critters are nursed into such great rotundity and excellence.

The committee appointed to decide upon the method of going to the Pumpkin Show will, it is expected, recommend the special train and it is planned to take the Washington Band and make the old city of the Circle know that someone has arrived.

Special trains will also be run from this city, leaving each morning, and returning at night.

Who Will Win the Honors?

The successful baseball season of 1916 has come to an end. The winning big league teams have been determined and are now resting on their honors and preparing for the big world series championship games which begin in Boston tomorrow. As is usually the case the flag winning teams in both of the big leagues are from Eastern cities—Brooklyn in the National League and Boston in the American. These two champion teams will battle for the supremacy of the baseball world in a series of seven games. Wise critics favor the chances of the Boston team in the big series. That may be because it won last year's world series and the Brooklyn team is a new comer in the select circles of baseball society. But there is that delightful yet maddening uncertainty about the great national game of baseball which gives it its firm hold on popular favor. One never can tell. Almost anything can happen in one ball game, or in a short series of seven games and it is the probability of the unexpected which causes "fans" to stand all night long to procure a ticket and pay their good hard dollars, by the hundreds of thousands to see the games. If Boston wins it will be the first time in the history of the game that a team has won four world series championships. The wise ones pick Boston but the "trolley dodgers" already the surprise of the National League may become the surprise of the world series.

The People's Duty

As the political campaign grows older—as they approach nearer to the end—the mass of reading material, so called arguments and reasons in support of this, that and the other candidate sent broadcast over the country increases. The great bulk of campaign literature is, it must be admitted, violently biased, very unreliable in its statement of fact and wholly unappealing in its arguments. Once in a while, however, the kernel of a good suggestion is discovered in the mass of shells. One of the really good suggestions is that the people owe a duty to an honest, conscientious, fearless and able official. That's true, too, every word of it. We are hearing and have heard a great deal of talk about the duty the official owes to the people who elevate him to a post of important public service. The suggestion, however, that the people owe the candidate anything more than his salary for his services is a new one. The custom has grown, unfortunately, in this country of casting upon a fearless official the duty of defending himself against the villainous attacks of place seekers. Those who find fault make all the noise while the people in whose interest and for whose benefit the official attacked has labored earnestly, say nothing. If the people expect good service in public offices they must evidence their appreciation by according praise and rushing to the defense of the champion of their rights when he is unjustly assailed by those who would destroy him in public esteem because of the good he has done. There is nothing either in public or private life that encourages a man more than an expression of gratitude for service well done. It not only would encourage the man who has rendered service worthy of praise, but it would strengthen the determination of others to go straight if they knew that vindication at the hands of the people was to be their reward for doing the right thing. The practice of abusing every official regardless of the service rendered has grown to alarming proportions in the politics of the nation. It has grown to such an extent that, regrettable as it is to confess it, there is scant encouragement to do right and fearlessly beat off the enemies of the people. Words of appreciation and praise are worth more than salary to any honest public official. People owe that duty to honest officials and should pay it just as they pay his salary.

PUMPKINS.
 High o'er the levels the corn shocks stand,
 Down in the hollows the pumpkins lie,
 Gold as the goldenest river sand,
 Polished as stars in the autumn sky
 Round ones and long ones, rough or smooth,
 Yellow and merry and ready to pluck.
 And, oh, for the season that brings, forsooth,
 The golden pumpkins to bring us luck!
 Fat ones and lean ones and dark ones and light,
 There in the hollows at last they peep.
 The corn is reaped and the shocks are tight,
 And the moonbeams over the cobwebs creep.
 Here they are holding the flesh of spring,
 The rind of summer, the breath of dew,
 The dreams of the days that were bright of wing
 When under the leaves of the corn they grew.
 Down the long alleys between the rows
 Where the huskers gather at autumn's call,
 The pumpkins dream of the days of rose
 And they smile in the sunshine one and all;
 Smile with their gold coats polished and gay,
 Smile as they lie 'neath the autumn skies—
 As we shall smile at an early day
 To taste how they taste in those homemade pies.

CANNIBALS KILL AND EAT BRITISH

(Associated Press Cable.)
 Sydney, Australia, Oct 6.—A steamer arriving from the New Hebrides Group, about 900 miles off the northeastern coast of Australia, has brought news of the murder of six persons by cannibals. The victims were a British trader named R. J. Bridges, and at least five children, whose bodies were found fearfully mutilated with axes and knives, and another child, who is missing, is believed to have been carried off by the cannibals and feasted upon. The murderers were thought to have come from avillage on Malekula Islands, where there are tribes of cannibals who are bound by native custom to kill and eat a human being in order to keep up their rank. The failure of the French and British punitive expeditions just before the outbreak of the European war to capture any of the perpetrators of similar crimes, and their immunity from punishment for two years past on account of the war, is thought recently to have emboldened the Cannibals.

FRENCH MAKE MANY CHANGES

(Associated Press Cable.)
 Saloniki, Oct 6.—The French are busily engaged in building permanent improvements of every sort in the Macedonian capital. At present they have in hand the project of a \$50,000 cold storage plant, and permanent marine and naval barracks are also planned. From the first landing of the troops they began building roads such as were never known here before, and since then sanitation, lighting, water supply and even street car service have been improved under the direction of General Sarraill.
 The general himself takes the keenest interest in all such work. Seeing some English troops at brigade drill one day, he reined in his horse and watched them for amoment.
 "They ought to have finished all of that before leaving England," was his comment. "Here the business is to build roads and dig sewers." Naturally, the inhabitants of Greece's second city, who have been citizens of Greece for three years with no advantages save of the payment of heavier taxes than ever the Turks had exacted, are delighted with the civic activities of the French.

E. church. An invitation is extended to all to attend this meeting. You will hear some of the stirring revival songs as Sankey used to sing them.

The remarkable success of Evangelist Willhite in the various tabernacle evangelistic campaigns he has conducted during the past few months has attracted much attention. Few evangelists have equaled his record. During his meetings at Washington C. H., West Jefferson, Jackson and Circleville, almost 3,000 people have been started on a better life to say nothing of the great benefits the church members have derived from his work. Every church in the cities in which he has conducted meetings has increased membership and the church members have been greatly benefited.

Following the services at Grace church Evangelist Willhite and party will conduct open air services at the court house square at 5:30 and at 6:30 they will assist in the program at the Christian Endeavor Meeting at the Presbyterian church. The public is invited to all of these services.

On Sunday, October 15 Evangelist Willhite and party will begin a series of tabernacle meetings at New Holland. The tabernacle will soon be erected there. All the churches and ministers of the place are in line with the movement and great results are anticipated.

JOHN TATMAN AGAIN IN HANDS OF LAW

John Tatman, old offender in police circles, was pulled up and thrown in jail Friday morning, after a lengthy chase through the southern part of the city during which he tested the ability of the police as sprinters, but was finally captured after a run of eight or ten squares.

Tatman dropped into the city in a half intoxicated condition and proceeded to the home of his former wife, whom he proceeded to threaten. When informed that the police would be summoned he declared he would kill the police.

Chief Moore was notified and was soon on the scene, and when Tatman saw him coming he proceeded to show his heels in a lively fashion.

A charge of intoxication and disturbing the peace will be placed against him, and he may soon be dining at the Hotel De Crow, in Xenia.

Progress made on Wilson building

Good headway is being made on the W. W. Wilson building on West Court street, where the walls are up to the second floor and will soon be completed.

The walls are heavier than those of the ordinary building, and constructed of the same kind of brick as that used in the new Union Station and the Herald building.

Mr. Wilson does not expect to occupy the new structure before early spring.

In erecting the building he has left the west wall in such shape that it can readily be removed should he build an addition to the present structure.

All The Durability of Steel Plus All The Beauty of Wood

That is value of the NEW, SIMMONS WOOD-FINISH on ALL STEEL BEDS.

In addition these beds are easier to move than wood beds, because of their lighted weight and their frictionless casters.

Massive steel tubing makes these beds substantial to look upon. A new feature in the wood-finished bed is the metal panel at head and foot.

This emphasizes the likeness to a wooden bed, while giving all the sanitary immunity of steel.

It is in keeping with the traditions of this store, that we should present at such an opportune time, a fine selection of the newest models in these wood-finish steel beds made by the SIMMONS COMPANY.

Other Simmons Beds are being shown at this time, and the style and price range is sufficiently extensive to please every taste, and to permit of selection for every bedroom in the home.

It was extremely pretty and the same white and gold tints were employed in the elaborate three course luncheon served.

Sixty women, a gathering of unusual congeniality, greatly enjoyed chatting over their needlework, interspersed with delightful vocal and piano selections given by Miss Daisy Cockerill and Miss Annette Stafford.

DRESS UP!

"Dress Up," that's the trumpet call that is being sounded this week from coast to coast. So far reaching has the Dress Up Week movement become that there is scarcely a section of the entire country that does not recognize the next two weeks as the official Fall Dress Up time.

The National Dress Up Movement is a practical common sense program for you to follow. It is a concrete suggestion that serves as a guide in solving the clothes question. It answers the puzzling question that confronts every clothes buyer—"when?"

So this store, in celebration of National Dress Up Week has provided special displays of high quality clothing and invites you to come and see them. During this event we shall show you styles, fabrics and values that will add new reasons why you should "dress up" now.

If the Dress Up idea has struck you forcibly, mark the lesson that it teaches. It's an old idea with new clothes on. In itself it is a fitting illustration of the effect which new clothes have and the impression they make. They give a new appearance, new satisfaction and new inspiration.

A New Overcoat is Necessary

Not only necessary for protection, but equally so for appearance. Wherever you go, a correct dressy overcoat reflects good taste and self respect whether you wear it on your back or carry it across your arm. There is added satisfaction too in choosing from such a complete display of models and patterns as are now here.

See The New Suits First

We say this because you will naturally consider your suit of greatest importance. Undoubtedly it's the first and biggest "Dress Up" item. So see the new styles and go through our assortments while you can do it leisurely, for there is ample variety here and you can find what you like best—in style and quality guaranteed clothes

And a New Hat of Course

You wouldn't think you were completely "dressed up" without a new hat to top off your attire. You'll find, too, when you choose from H.T. Wilkin & Co.'s stocks that it's more important where you choose than how much you pay.

We'll Show You The NEW TIES

While the New Shirts you select are still before you, the "man behind the counter" will be pleased to help you choose harmonizing neckwear of fine silk in rich, becoming patterns.

It's Warm Underwear Time Anyhow

So you can well afford to "stock up" for fall and winter now. Besides the snug smooth fit of our quality Underwear adds to your Dress up Satisfaction by making you feel that you are well dressed.

The "Dress Up" Value of New Shirts

The crispness and full color of a new distinctively patterned shirt adds a touch of pleasure that you'll surely not wish to deny yourself—especially when such excellent numbers are shown at 50c to \$2.00.

H.T. WILKIN & CO.

First impressions have a lasting influence. Notice that the man whose business calls for travel and meeting strangers is always faultlessly dressed.

EXPERT CONRAD TO MEET LOCAL FOLK TOMORROW MORN

Neal Conrad, the Tanlac health expert will be here tomorrow.

His headquarters will be at Blackmer and Tanquary's drug store where he has arranged to meet the general public and explain Tanlac, the new medicine which has caused widespread comment throughout Ohio.

Conrad is a distinguished looking young man. His talks are plain and interesting. Some of his expressions are unusual and convey to the minds of his listeners much food for thought. In an interview yesterday, Conrad said:

"The same service that a dynamo performs for an electric light is performed for the human body by Tanlac. The dynamo does not actually produce light—it furnishes the power which enables the filament within the electric light bulb to make the light. Tanlac does not produce life but it furnishes stimulative power to the vital organs which better enables them to produce health."

"Now I want everybody to know that I am right here in Washington to explain all about Tanlac—to answer every question. I am not here merely to sell Tanlac. I want the scores of people who have taken Tanlac to come in and shake hands with me. I want to meet them face to face and have a little chat with them—come, let's get better acquainted."

"Men and women who have improper digestion are usually nervous—they are irritable—they lack energy and ambition for their work. Such people are easily discouraged and become melancholy over slight things. As a consequence of their ailments they cannot sleep soundly, they have poor memories, backaches, irregular circulation of the blood, dizziness and the common ailments of the stomach, nerves and liver. If these conditions remain long unchecked the vital organs become affected."

"Tanlac is primarily a tonic, tissue builder and appetizer designed to overcome these troubles. While it is true that the success of Tanlac in Dayton, Springfield, Cincinnati and other cities has been so great as to amaze certain business people, it really, also, is true that Tanlac is no more popular there than it is right here in Washington."

"We find everywhere that the most prominent persons give testimony of Tanlac out of gratitude for the relief that Tanlac brings and because they believe it is their duty."

"It is the humanitarian spirit to help the 'other fellow' if you can and that is the first thought of many men and women who voluntarily tell what Tanlac has done for them."

Conrad will be ready to meet all callers at Blackmer and Tanquary's drug store after 9 o'clock tomorrow.

Tanlac may be obtained in the following nearby towns, Sabina, J. J. Spurgeon; Wilmington, Harry Christopher; Jeffersonville, J. B. Davis; Jamestown, W. F. Harper; Greenfield, Harry Christopher; Bainbridge, A. W. Fetter; Anderson, C. A. Graves; Chillicothe, Mushler Pharmacy; Leesburg, Chas. W. Feller; New Vienna, W. C. Higley; Austin, William M. Near; Bowersville, C. E. Gardner; Bloomingburg, J. Y. Stitt; Clarksburg, Clarksburg Drug Store; Octa, I. W. Murphy.—Adv.

NOW THEN

(By American Press)

New York, Oct. 6.—Vance C. McCormick, chairman of the Democratic national committee, announced that he had been served with a summons in a suit for \$50,000 brought against him by Jeremiah A. O'Leary, president of the "American Truth society."

Mr. McCormick said he had not been apprised, however, of the charges upon which the suit was based.

Mr. O'Leary, in a statement issued soon afterward, declared that his purpose of instituting the action was "to find out, first, whether hyphenism, so-called, is libelous, and, second, whether it is inconsistent with Americanism."

Mr. O'Leary said he resented a statement attributed to Mr. McCormick criticising him for sending an "insulting message" to President Wilson. In that message Mr. O'Leary criticised the president for "not enforcing American rights against Great Britain," and informed Mr. Wilson that he would not vote for the re-election of the president.

BOTH MAKE SPEECHES

(By American Press)

Martins Ferry, O., Oct. 6.—Governor Willis and former Governor Cox, shaking hands in front of 6,000 Belmont county people gathered on the fair grounds at St. Clairsville to celebrate the completion of the reconstruction of the old national highway in Ohio, were greeted with a storm of nonpartisan applause. Both speakers agreed that credit for the reconstruction of the old National pike into one of the best modern brick highways of the country was great enough to pass around. The road was begun under Cox and completed under Willis.

THE SEQUEL

(By American Press)

Cleveland, Oct. 6.—Justice William J. Soul swore out an affidavit charging Salvatore Sceppaceraqua with manslaughter in connection with the death of Deputy Game Warden John Wagner. Wagner's body was found Sunday in a woods on a farm southeast of Bedford. Sceppaceraqua and Wagner, it is said, struggled over a shotgun after Wagner had demanded to see Sceppaceraqua's hunting license. Sceppaceraqua is in St. Alexis hospital, recovering from two bullet wounds.

New York, Oct. 6.—Charles E. Hughes will commence his third western campaign tour in behalf of his candidacy for president on the Republican ticket next Monday, with a noon-day meeting at Newark, N. J. He will return to New York city to register for the election and at 6 p. m. will leave for Philadelphia, arriving there at 8 o'clock.

Leaving Philadelphia at 10 o'clock the following morning, Oct. 10, the "Hughes special" will go directly to Hagerstown, Md., where he will speak that afternoon at the Interstate fair. The same evening Mr. Hughes will speak in Baltimore, in the state armory.

Part of the schedule follows: Oct. 11, brief speeches in West Virginia towns, including Clarksburg, Parkersburg, Huntington and Charleston. HERE THEY BE

(By American Press)

Omaha, Neb., Oct. 6.—President Wilson has decided on three men for appointments to the newly created board which is to consider railroad legislation, especially as it pertains to the eight hour day. They are: General George W. Goethals, former governor of the canal zone; George S. Rublee of the federal trade commission and Interstate Commerce Commissioner Clarke. It is probable that official announcement of their appointments will be made immediately on the president's return to Shadow Lawn.

IN A HURRY

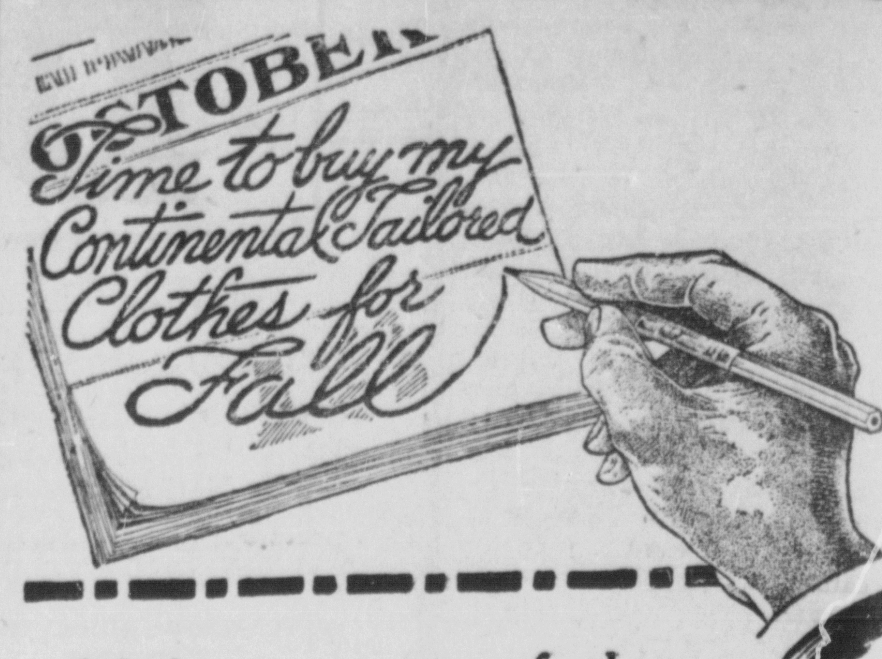

(By American Press)

Mount Holly, N. J., Oct. 6.—Highwaymen shot and probably fatally wounded A. J. Rider, president of the New Jersey Cranberry Growers' association, his niece and an unidentified man, and killed his brother, Henry R. Rider of Howell, Mich., on the Atsion road, about three miles below here. Screams from Miss Rider as the men, supposedly Italians, turned the revolver upon her, frightened them off in such haste that they left \$8,000, the payroll of cranberry pickers.

TRANSPORT TORPEDOED

(By American Press)

London, Oct. 6.—The admiralty announces that the Cunard steamer Franconia, employed for transport duty, was sunk in the Mediterranean by an enemy submarine. The steamer had no troops aboard. Twelve men of the crew of 302 are missing.

AWFUL TRAGEDY

(By American Press)

Cincinnati, Oct. 6.—Police were trying to find a specific motive for the killing of Alphonso Wetterer, forty-seven, wealthy brewer, by Miss Helen Houck, thirty, at her home in a fashionable suburb. After shooting Wetterer, Miss Houck killed herself. She left a note to her sister Ruth, saying that Wetterer had done her a great wrong. Miss Houck and Wetterer were found lying on the floor in a room of the Houck home. She had a bullet hole through her temple. Wetterer had two bullet wounds in his head. Miss Houck was the divorced wife of William Everhardt, who now lives in Colorado.

WASHINGTON HIGH IS DOING SOME HARD WORK FOR SATURDAY'S GAME

Washington High will play, Saturday, the hardest football game of the season. Springfield has an unusually good team this year and comes to Washington to cop the game by a handsome score. It is the ambition of the team to show the Springfield bunch up. It will be remembered that the last time Washington played Springfield it was only by supreme effort that Washington scored.

The boys have been working out hard this week and are in good shape for the game. However a number of the players have not reported for practice. It is impossible to create a football machine unless there are two teams on the field every night of practice and it is hoped that more players will respond. Practically all of the regulars will be in the game Saturday, and by dint of hard work they hope to hold their own against a team much larger.

Washington High School appreciates the patronage of the Washington people and it is their constant endeavor to give them their money's worth in athletic contests. So far the team has been going very good and has good chances to put Washington on the map for a Southern Ohio championship. Everybody turn out Saturday and help the boys win.

The players, with Hoppes back in the lineup the line will be materially strengthened. However Harper will not be able to play and it is probable that Lloyd will be out of the game. The rest of the line and backfield will be the same as last Saturday's lineup.
